Service Model

Social/Emotional Support Services in the Early Childhood Program are delivered on a referral basis.

Services may include:

- Parent consultation, training, support, resources, education, and/or linkage to community service providers
- Development of goals and intervention plans to be implemented at home or school
- Communication and collaboration with private therapists or other community providers
- Prevention strategies and a platform for ways to enhance social and emotional wellness
Behavior Support Specialists:
Provide services to children enrolled in DD programs
- Support classroom teachers and families with behavior strategies at and the center
- Link families to behavioral health resources
- Work with child’s team to establish classroom and home environments to support desired behaviors

Mental Health Consultant:
Provides support services to all classrooms at ECEFC
- Individual and group strategies for improved social and emotional wellness
- Environmental support and suggestions for classroom teachers/team
- “Incredible Years” support - A program incorporating the use of puppets to assist children in developing skills to accomplish desired behaviors
- Devereux Early Childhood Assessment (DECA) support - A tool used to assess and provide strategies to increase a child’s resiliency within the framework of the classroom

Psychology Staff:
Provide services to children enrolled in DD programs
- Psychological assessments
- Cognitive (IQ) testing
- Adaptive Behavior
- Social/Emotional/Behavioral Assessment, including Autism or other Mental Health Disorders
- Consultation for developmental, social, emotional, and behavioral concerns
- Short term therapy
- Parent Education/Parent Support
